

## Tutorial Proposal Form

(Please fill in the appropriate sections)

### 1) Tutorial Title

*Please insert the title of your tutorial here.*

### 2) Instructor(s)

Last Name:

First Name:

Position:

Affiliation:

Address:

Email:

Phone:

Fax:

Homepage:

### 3) Tutorial Abstract with Objective and Motivation

A concise description of the content and goals of the tutorial.

Is this a survey of several topics, or an in-depth study of one?

Why do you consider your tutorial topic to be important?

What will the participants learn?

### 4) Overview of the subject

### 5) Outline, Tutorial Organization and Total Tutorial Period

Please give an overview of the planned content and include rough time allocations.

### 6) Intended Audience

Who do you think could be interested in / benefit from attending your tutorial?

Is any prerequisite knowledge expected of audience?

### 7) Presenter(s) Biography

Short CV or short biography, including some information on prior teaching and research experience (classes, courses, projects, etc.)

### 8) Prior History

If the instructor has given a tutorial previously, explain when and where, and estimate attendance.

### 9) Major References

This list will help identify the scope.

## **10) Supplementary Materials**

Anything that might help the reviewers evaluate the proposal, such as sample viewgraphs, links to potential course web pages of the instructor or, if already available, draft tutorial slides.
